

Senior managers and business owners...

We want your attention!

Contractor Safety Essentials

This new program demonstrates to owners and senior managers of construction firms that making more time for safety will not only prevent workplace injuries, but will also improve your bottom line and reduce your liabilities.

“Really hit home! I’m going to do something about our situation! Thanks.”

– Participant feedback

Successful contractors know that safety is much more than a legal obligation.

IHSA has developed a one-day program called “*Contractor Safety Essentials*”, aimed at owners and senior managers of small to medium-sized construction firms.

This program will help contractors learn the value of investing in health and safety.

“Good worksheets, scenarios that relate to our industry. Free, valuable information.”

What you will do

- See for yourself how much a relatively minor injury would cost your business.
- Find out how safety violations affect the liability of you and your company.
- Consider how jobsite hazards are affecting your company and what to do about it.
- Discover the real key to a successful health and safety program.
- Decide if you are spending enough time carrying out your h&s responsibilities.

“I got a much better understanding of the safety essentials. Congrats.”

Program outline

- | | | |
|---|---|--|
| 1. Improve your bottom line | 2. Reduce your liabilities | 3. Control your jobsite hazards |
| <ul style="list-style-type: none">▪ Hidden costs of an injury▪ Rebates and surcharges▪ The health & safety payoff | <ul style="list-style-type: none">▪ Contractor pre-qualification▪ Every reasonable precaution▪ Actions, documents, and safety culture | <ul style="list-style-type: none">▪ Foreseeable hazards▪ Are you doing enough?▪ Making time for safety |

“Great workbook!”

What the program will reveal

- The hidden costs of a minor workplace injury
- How a workplace injury would affect the profitability of your business
- How injury costs and injury frequency affect your WSIB premium rate
- Your biggest health and safety liability
- Your contractor pre-qualification questionnaire results
- Prevention strategies based on real-life safety convictions
- What it means to be duly diligent
- Your top three foreseeable hazards
- The safety actions for which you must make time

“Quite overwhelming, but I am committed to embracing health and safety.”
